**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1-22 have been allowed.

***Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance:

The prior arts of record issued to Farris and Eyer either alone or combine fails to teach or suggest each and every feature of claims 1, 8, 11, 14, 17, 20, 21, and 22 for a broadcast signal transmitting apparatus and its corresponding method, wherein the apparatus comprising a multiplexer configured to multiplex a broadcast signal and multimedia data, said multimedia data described by a mark-up language and including broadcast program information, link location information, control signals providing display control to a receiver and control signals providing recording control to a recording medium onto which an image signal obtained from said broadcast signal is recorded; and a transmitter configured to transmit said broadcast signal and said multimedia data multiplexed in said multiplexer to said receiver. Farris describes the transmission of a multiplex broadcast signal together with a mark-up language, column 7, line 65 through column 8, line 27 of Farris refer to a "hypertext reference to an object", this passage simply refers to functionality which may be provided during the editing of assets through a video editor. As can be appreciated, the transmission of a broadcast signal multiplexed together with mark-up language data is wholly different than creating multimedia objects at a production station. Meanwhile, Eyer has a multiplexer 115; however, Eyer only describes that HTML/HTVP data 110 is multiplexed with

programming services 105 by multiplexer 115. It is respectfully submitted that Eyer does not teach or suggest that HTML/HTVP data 110 includes (1) broadcast program information, (2) link location information, (3) control signals providing display control to a receiver, *and (4) control signals providing recording control to a recording medium onto which an image signal obtained from said broadcast signal is recorded* as recited in amended claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***
